

Scavenger Fire & Safety

Providing Superior Fire and Safety Products and Services in Western Australia

Scavenger Fire & Safety's expertise lies in offering a comprehensive range of fire systems and equipment, coupled with reliable servicing, maintenance, and professional design of complete fire protection systems.

There extensive product portfolio features only the highest quality fire safety products from trusted manufacturers, ensuring unmatched standards. Scavenger Fire & Safety is a division of Scavenger Supplies, an Australian-owned company that specialises in providing industrial products and services throughout Australia.

With a strong commitment to safety and maintaining high standards, our focus is on establishing control systems that create a safe and healthy work environment for everyone.

Established in 2002 as Conveyor Technology Services, Scavenger Supplies has consistently expanded to meet the high requirements of industry in Australia. With two divisions – Scavenger Supplies and Scavenger Fire / Maritime Safety – we are supported by four leading brands:

- Scavenger Supplies
- Conveyor Technology
- Scavenger Fire and Safety, and
- Grating FRP Australia.

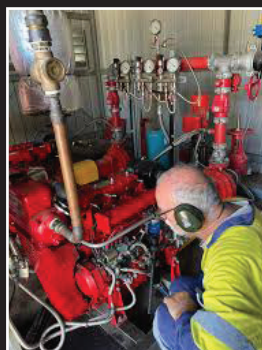

Our comprehensive product portfolio is based on quality-assured manufacturers and suppliers.

We service a wide range of fire protection equipment including:

- Automatic fire alarm and detection systems
- Fire hose reels
- Automatic sprinkler systems
- Gaseous flooding systems
- Fire hydrants
- Portable fire extinguishers and blankets
- Fire pump sites (diesel and mechanic)
- Fire and smoke door sets
- Emergency and exit lighting

We take pride in our range of solutions, constantly seeking products that possess perfect mechanical properties, are lightweight, high strength, impact resistant, and easy to maintain. Our products offer a multitude of benefits, allowing you to focus on delivering the safety and environmental standards expected by your customers and employees.

Scavenger Fire & Safety is proudly recognised as a Gold Member of Fire Protection Association Australia (FPAA) and holds certifications in ISO 9001:2015 Quality Management System and ISO45001:2018 Safety Management System.
